\$88 Electrical Safety Check

After listening to our customers, we found that we were in need of doing electrical safety checks. So we asked our team of electricians; "What should we inspect?" We are proud to say we have come up with an \$88 Residential Electrical Safety Check that includes but is not limited to: the main panel, main panel corrosion, surge protection, security lighting, circuit overloads, breakers, meter rust, etc...

Please call today to schedule your \$88 Residential Electrical Safety Check!

Win \$1000 for Your Charity!

Our Mission Statement...

McHalesCares.com is a community give back program. Our goal is to find well deserving charities in our backyard that could use a little help. We will donate \$1000 each month, so the winning charity can continue to give back to the same community that McHales has been a part over for over 60 years. Help us, Help you!

What do we need from our customers?

Start spreading the word to your family and friends. Go to our website: McHalesCares.com and nominate your favorite charity ... vote on the charities that are in the running every month. HELP US, HELP YOU!

Look for McHalesCares.com

You'll be seeing this on the Middletown Monument, on our service technicians' T-shirts and sweatshirts. It will be on our marquee and in our commercials.

What Happens once a charity is nominated?

We will notify the nominated charity and let them know that they are up for voting in the upcoming month. They will have links to advertise to their friends, families, and customers to vote for them. Voting will last about 1 month. They will be able to vote once per day. The winning charity will be notified.

What Happens to the Winner?

Once a charity wins, we will notify them that they have just won \$1,000 from McHales. We will pick a time to meet them and present them with the check.

What happens to the other 2 charities?

They will go back into the pot to be voted on again in the future.

THROUGH THE GENERATIONS

John and Anna Mae McHale started the family business in 1950 out of their home at 2450 Trenton Road Levittown Pa. They had one truck and a simple philosophy... "We do what we say we are going to do!" John McHale Sr. served in the Navy during World War II. He became one of the few Licensed Master Plumbers in Bucks County. He provided plumbing and drain cleaning for the Levittown area in the 1950's. Each morning, John Sr. would have breakfast at the diner with two other local plumbers. After breakfast, he would use the payphone and call Anna Mae to get his list of customers for the day. He would come out for free, do the work over a hand shake and mail a bill. Simple times.

Above: McHales Fleet in the 1980s

As life went on and the business grew, their son, John McHale Jr., served in the Navy as a Seabee during the Vietnam War. John Jr. received a plumbing apprenticeship and earned his Master Plumber license in PA and in New Jersey. After learning the business from the ground up... John Jr recognized the post-World War homes were in need of updates. He started to expand the business into remodeling in the 1970's. By the early 80's, John Jr. became one of the first Master Plumbers to own a computer and his trucks were outfitted with Motorola CB's.

Left: A Fixzit Man Truck

McHales also became McHales Fizxit Man which provided flat rate services including Plumbing, Heating, Cooling, Electrical, and Major Appliances. The remodeling division became known as McHales KBA Kitchens, Baths & Additions. John Jr. kept the same simple philosophy his parents had "We do what we say we are going to do!"

By the 1990's a new energy was coming into the family business. Tim, was the first McHale to graduate college. He earned a business degree from California University of PA and also earned a Master Plumbing License. McHales became incorporated and in for a huge overhaul... McHales Inc. was about to be born... yet Tim still held onto the same simple philosophy his grandparents had... "We do what we say we are going to do!"

Above: Tim McHale, 3rd Generation

Knowing the trade and how to properly run a business, Tim took a mom and pop shop and grew it into one of the largest service companies in Bucks County. McHales Inc. now provides service in plumbing, electrical, heating, air conditioning and drain cleaning. The Kitchen and Bath remodeling division has won Contractor of The Year 10 times by the National Association of the Remodeling Industry (NARI) and are multiple winners of Best of Bucks and Bucks Happening.

The 4th generation of McHale's are already running around the office asking questions and making their TV debuts in some of the cutest commercials you've seen in a while...

Above: Truck #100

In 2019, McHales Inc. hit a milestone and purchased Truck number 100. We currently run approximately 5000 service calls per year, remodel about 100 kitchens and baths and are approaching 2000 on line reviews. We have iPads for paperless invoicing, GPS tracker units to let customers know when we are enroute and are and still operating out of the same location... 2450 Trenton Road Levittown, PA.

Since 1950 we have provided our customers with prompt, dependable service at a reasonable cost. We use quality materials installed by skilled, courteous craftsman. Tim and his wife, Lorraine, are now raising the 4th Generation in the business following their children's great-grandfathers simple philosophy... "We do what we say we are going to do!"
